

# **HAM RADIO OPEN HOUSE**

**WHERE:** Long Wharf, Cambridge MD

**WHEN:** Saturday, April 19 10:00 a.m. to 2:00 pm.

**Sponsored by the Easton Amateur Radio Society**

*We will operate an amateur station in our club trailer. You are invited to stop by and visit at your leisure, ask questions and see first-hand how amateur radio works and what it is.*

This event is being held to coincide with Worldwide Amateur Radio Day and the 100<sup>th</sup> Anniversary of the International Amateur Radio Union. The public is invited to visit and experience in real time many facets of amateur radio such as morse code, voice, digital, and satellite communications. Among the tenets of amateur radio are developing and practicing skills in radio technology and communications, providing emergency communications when normal systems are impaired or down, and fostering international good will.

*Ham Radio Open House is our opportunity to show you the science, service, and skill we can offer to the public free of charge.*

All amateur radio operators are licensed by the Federal Communications Commission and governed by international treaties.

Please stop by on the 19<sup>th</sup> and learn about amateur radio.
